

The Federal Communications Commission

Dear The Federal Communications Commission,

I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that your proposal will hurt people, like me, who do not use their phone often. Why should I pay more taxes to alleviate business taxes? Corporations can (and do) pass on their expenses to consumers. I have no one I can pass my increased fees onto. I must pay them or get rid of my cell phone.

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Sincerely,

Christine Remington
